WE'RE DIFFERENT!

Founded by techies who have grown tired of hearing the same old sales noise. We want to give customers a simpler, more direct and better value route to technical expertise and customer experience without all the bull.

Do you really care who makes your IT or where it's located, as long it works exactly as promised, all of the time?

That's what we thought.

In a nutshell, we work with you to understand your business and people objectives, then apply our know-how with the below technologies to help you achieve them.

Data Centre

Infrastructure

Security

Wireless

Collaboration

IT SERVICES

Qualified experts with a no-compromise approach

THE BEST RESOURCE YOU NEVER KNEW YOU HAD

As specialists in Data Centre, Network Security, Wireless and Collaboration, we'll help you simplify your workload. Whether its assessing, migrating, optimising, planning, designing, installing, supporting or managing, we have a wealth of talent for doing it right. Check out our full house.

Our job is to make your job easier.

We're experts in providing technical expertise and skills overlay wherever it's needed. So relax, whatever your challenge, our family of friendly techies will help you keep your IT headaches and costs in check, leaving you to focus on your talents.

Audit & Assessment

Presales & Scoping

High & Low Level Design

Implementation & Delivery

Migration Activities

Post Implementation Support

Handover & Support Documentation

Consultancy Ad-Hoc & Fixed Term

Monitoring Services

Hardware & Break-fix Support

YOU'RE ONLY AS GOOD AS YOUR WEAKEST LINK

Security threats come from all directions. While your IT people may be up to speed with what they know, it's what they don't that will trip you up and put your business at risk.

Effective, evolving security mitigation is our day job. It's what we excel at. And because we practice it all the time and are always keeping pace with changing IT threats, we are perfectly placed to add that essential overlay to your IT people.

We are experts at keeping all sizes of business free of vulnerabilities, both external and internal.

Ransomware and Phishing

E-mail and messaging

Intrusion Protection System

Diverse firewalls and anti-malware programs

Perimeter and external Security

SECURITY

Are you beating the bad guys?
IT security with no blindspots.

DATA CENTRE

Is your data centre on cloud 9?
Our customers think so.

WHAT WOULD YOU DO IF YOU LOST YOUR DC?

Plan for the worst, hope for the best. Wise words indeed. No one wants or expects a data centre outage. Yet we hear and read about them far too frequently.

And downtime costs you time, money and reputation.

At Re-solution, we design and implement data centre solutions that are reliable and always accessible. Regardless of whether they are in a public or private cloud, on-site or off-site, or something in-between, it's all the same to us; it's your data centre and it should work just as you were promised.

Hardware installation and maintenance

Managed power distribution

Backup power systems

Data backup and archiving

Managed load balancing

Controlled Internet access

Managed e-mail and messaging

Managed authentication and authorisation

Diverse firewalls and anti-malware programs

Managed business continuity

WHY-FI?

Contrary to popular belief, you can't just stick a bunch wireless access points on the ceiling and expect everything to be rosy.

Effective wireless and mobility requires a different approach and thinking to network design. Our guys will always help you deploy a powerful solution that is.

Our team take the best of industry switching, power, WAN optimisation, location services and Wi-Fi to deliver mobility solutions that help businesses achieve better user and customer experiences.

Our role is to make sure you benefit from the very latest designs, solutions and standards to keep your business safe and moving.

Secure connectivity

Capable performance & throughput

Scalable for extensive growth

Manageable and compliant

Role-based Accessible

Indoor and outside

Performing & measurable

Network access control

Application aware

Prioritised for Media and LoB

WIRELESS

Connecting devices, applications, and processes seamlessly with your people.

A Flexible Partner

On-premise,
Off-premise,
Hybrid.

We have you covered.

WHERE THE ONLY CONSTANT IS CHANGE

IT and technology are no different. Everyday, something new is being announced, better practices evolved and new learning through experience implemented. It's why we stay open-minded. As your business evolves, we will be on hand to help you harness the right technology to achieve your goals.

Although we talk a lot about technology, we know all too well that business and users typically have a very different set of challenges and aims to contend with. Helping you overcome and solve your business challenges is always our starting point.

With years of experience helping both small businesses and large enterprises to get things done more effectively, we can bring proven solutions and practices to even the most challenging of problems.

Ask us. we love a challenge!

Ready for anything
A versatile, skilled and
capable force for every
size of challenge

SKILLS & IT SERVICES

First and foremost, we are technical experts in all the IT areas we offer.

We'll never take projects we can't deliver.

We believe in 'right first time' service.

We're friendly and easy to work with.

Our team of tech fanatics are always on hand to get the most out of your IT infrastructure and assets. We cover all the usual IT service and solution disciplines and a few you might not know about.

Whatever your technical needs, we'll make sure that disaster doesn't come a-knocking for you, your users and most importantly, your customers.
